

## Application of knowledge- Wild Your Garden

You have learned about how we can manage small and large gardens to encourage more wildlife and enhance species biodiversity.

Now you can apply this knowledge by designing your own wildlife garden.

### **Vocational scenario**

You own a medium sized garden and want to encourage more wildlife.

**Design a garden which will attract wildlife.**

### **Wilding Your Garden- checklist**

**Wildflower meadow**

**Leave areas of uncut lawn**

**Plant native trees and shrubs**

**Leave a brash pile**

**Create insect hotels**

**Put up nest boxes**

**Put up bird feeders**

**Create a pond**

**Create a bog garden**

**Leave a log pile**

Design your garden and label the features you have included.
